## Practical guidance and resources for the remarried family.

When Moe and Paige Becnel married in 1987, blending a family of five children, there were no resources for remarried couples struggling to rebuild their families. Today, through *Blending A Family Ministry*, the Becnels share with others practical advice and biblical truths about building a solid family, including:

- how to achieve individual wholeness
- how to identify and overcome divisions in families
- understanding the children's perspective
- understanding the role and responsibilities of stepparents
